nabil.hifzhan@gmail.com | +6586508946 | www.linkedin.com/in/nabil-hifzhan

Data & Analytics professional with 5+ years of experience delivering end-to-end data solutions across FMCG, consulting, real estate, and technology-driven organizations. Strong expertise in data analytics and data engineering, including ETL-pipeline development, cloud data platforms (GCP & Azure), dashboarding, and process automation to drive scalable, data-driven decision-making.

Work Experience

Pontiac Land Group - Singapore

Data & System Analyst/Engineer | Feb 2025 – Now

- Led the design and implementation of a **scalable enterprise data lake on Google Cloud Platform**, integrating **Cloud Storage, BigQuery, and Cloud Functions** to centralize business data and enable advanced analytics.
- Developed and maintained **10 automated dashboards along with ETL pipeline**, improving reporting visibility and reducing turnaround time, which **increased operational efficiency by 70%** and **reduced manual work by ~60 hours per month**.
- Managed to **save annual cost up to SGD 30k/year** by leading and implementing **migration all modules from AoDocs to Appsheet**
- Designed and implemented **10 AppSheet applications** to automate data collection and workflow management, improving accessibility and usability for non-technical users.
- Delivered and validated **ad-hoc data requests** for report related and operational support across the organization
- Led a company-wide data cleanup initiative, designing and implementing a robust database architecture to support scalable and reliable data management.

Unilever - Indonesia

Data Analytics/Engineer - Finance & Supply Chain | Nov 2022 – Jan 2025

- Responsible to **lead a team consist of 2 person**, which focus on creating **data foundation for Supply Chain and Finance**, overseeing data ingestion into Azure Databricks and developing Power BI dashboard for tracking purposes
- Led, initiated and developed **Supply Chain Manufacturing Data Foundation** for 6 factories by **creating data mart** with 85+ datasets and **building 15 automated dashboards**, achieving **80% data coverage** and **reducing manual operation by ~120 hours per month**
- Developed and maintained **30 SAP-replicated datasets** in the data mart by **recreating SAP backend logic**, enabling automated data extraction and fulfilling business reporting requirements from SAP as the primary ERP system.
- Collaborated with data engineering teams to **migrate and integrate 8 on-premise servers to azure cloud**, improving data accessibility and system scalability
- Served as the **Subject Matter Expert (SME)** for Supply Chain and Finance data, **delivering ad-hoc analytics and reporting support** for operational and strategic decision-making.
- Developed and managed **5 automations** workflows using Power Automate and UiPath, reducing manual process and integrate with external apps or platform

- Led, developed and demonstrated an **automated board performance deck** along with the ETL pipeline, covering 30+ cross department KPIs, which became the primary data source for board meetings and drive board decision.

Deloitte Consulting - Indonesia

Artificial Intelligence & Data Analyst | Oct 2021 – Oct 2022

- Developed and implemented **end-to-end RPA solution** for Indonesia's largest telecommunications company to improve operational efficiency and cost savings
- Provided **technical support and troubleshooting assistance** for **30+ robot** included robot with the **biggest FTE at about 58** to solve issues and ensure runs well
- Collaborated with clients and business stakeholders to **identify automation opportunities, gather requirements** and **design workflow** based on their needs
- **Monitored performance and utilization** of each robot and compared with the target to ensure on ROI and terminate the robot that doesn't work

Grab - Indonesia

City Growth Intern | Dec 2020 – Jun 2021

- Supported strategic growth initiatives that **increased** GrabFood Jakarta **demand by 15%**, contributing insights and performance analysis to guide commercial and marketing decisions.
- Planned, monitored, and optimized in-app customer assets, tracking performance metrics and making data-driven adjustments that **improved click-through rate by 10%**.
- Collaborated closely with marketing and sales teams to **execute city-level campaigns**

Skill & Expertise

- **Data Engineering & Analytics:** SQL, Python, Airflow, dbt, spark, hadoop, hive, API, Google Apps Script
- **Cloud Platforms:** Google Cloud Platform (BigQuery, Cloud Functions, Dataflow), Microsoft Azure (Databricks, Data Factory, Synapse)
- **BI & Visualization:** Power BI, Tableau, Looker Studio
- **Automation:** Power Automate, Google Appsheet, VBA, UiPath, Ephesoft
- **On-premise server:** Microsoft SQL server, MySQL, PostgreSQL

Certification

- (AZ-900) - Microsoft Certified: Azure Fundamentals

Education

University of Indonesia - Bachelor of Chemical Engineering

GPA: 3.65/4.00 | August 2017 – August 2021

Kyoto University - Energy Science, Winter School

January 2021 – February 2021

Achievements

- **Uniops SEA&I Director Award 2023** - Successfully Implementation Board Performance Radar - Dec 2023
- **2nd Runner Up Most Outstanding Student, Faculty of Engineering Universitas Indonesia** - June 2020
